ADVANCE REPORT ON DURABLE GOODS MANUFACTURERS' SHIPMENTS AND ORDERS June 1993

(All figures in text below are in seasonally adjusted current dollars)

New Orders

New orders for manufactured durable goods in June increased \$4.8 billion or 3.8 percent to \$131.6 billion, the Department of Commerce, Bureau of the Census reported today. This follows a 2.4 percent decrease in May and is the first increase since February. Year to date, new orders for 1993 are 7.9 percent above the same period a year ago.

Transportation equipment had the largest increase, up \$4.6 billion or 15.1 percent to \$35.1 billion, primarily due to aircraft and parts. This follows three consecutive monthly declines. Electronic and other electrical equipment was up \$0.6 billion or 3.3 percent to \$18.8 billion, primarily due to electronic components. Stone, clay and glass products, industrial machinery and equipment, and lumber and wood products declined.

Shipments

Shipments of durable goods in June increased \$3.0 billion or 2.3 percent to \$135.2 billion, following a 0.4 percent decrease in May. All major groups increased except lumber and wood products and industrial machinery and equipment. Transportation equipment had the largest increase, up \$1.7 billion or 4.8 percent to \$35.9 billion, due to motor vehicles and parts and aircraft and parts. Electronic and other electrical equipment increased \$0.6 billion or 3.3 percent to \$19.4 billion. Primary metals increased \$0.4 billion or 3.5 percent to \$11.6 billion. Year to date, shipments are 8.0 percent above the same period a year ago.

Unfilled Orders

Unfilled orders for durable goods in June decreased \$3.7 billion or 0.8 percent to \$435.5 billion, the lowest level since August 1988. This is the fourth consecutive monthly decline. All major groups declined. Transportation equipment was down \$0.8 billion or 0.4 percent to \$230.2 billion, primarily due to aircraft and parts and shipbuilding and tanks. This is the fourteenth consecutive monthly decline. Electronic and other electrical equipment declined \$0.7 billion or 1.6 percent to \$41.5 billion, primarily due to electronic components. Instruments and related products also had a large decrease.

Capital Goods Industries

Defense - New orders were up \$0.4 billion or 8.1 percent to \$5.9 billion, following a 20.7 percent decrease in May. Shipments were up \$0.2 billion or 2.1 percent to \$7.5 billion, following a 1.7 percent decrease in May. Unfilled orders, down seventeen of the last eighteen months, decreased \$1.7 billion or 1.3 percent to \$123.9 billion, the lowest level since February 1984

Nondefense - New orders increased \$3.4 billion or 11.4 percent to \$33.3 billion, following a 1.9 percent decrease in May. Shipments were up \$0.7 billion or 2.1 percent to \$33.3 billion, following a 1.3 percent increase in May. Unfilled orders remained at \$206.1 billion after declining in thirteen of the previous fourteen months. This is the lowest level since June 1989. Excluding aircraft and parts, new orders increased \$0.2 billion or 0.7 percent; shipments increased \$0.1 billion or 0.4 percent; and unfilled orders decreased \$0.2 billion or 0.3 percent.

Please note that revisions in data reported for new orders and unfilled orders for October 1992 through March 1993 appear in Tables A and B.

This report presents advance information on two key business indicators: durable goods manufacturers' shipments and orders. Revised and more detailed estimates plus nondurable goods and inventory data will be published August 5, 1993. The advance report on durable goods for July is scheduled for August 25, 1993. This report is available on the day of issue through the Department of Commerce's online Economic Bulletin Board (N-8-1) (202-482-3870) and through the Census Bureau's online information service-CENDATA. Further information about accessing CENDATA can be obtained from Dialog Information Services, Inc. (1-800-334-2564) and CompuServe (1-800-848-8199). The CENDATA staff at the Bureau of the Census (301-763-2074) can provide content information and general guidance.

Note: The revisions are the differences between the month-to-month percent changes of the advance and final estimates. The monthly averages are the simple averages of the differences, without regard to sign, for the months specified.

¹ Shipments and new orders are the totals for the period and are adjusted for trading-day and calendar-month variations; unfilled orders are as of the end of the period and are not adjusted for trading-day or calendar-month variations.

² Based on advance sample.

³ The Capital Goods Industries include Nondefense: ordnance and accessories, steam engines and turbines, internal combustion engines, construction mining and material handling equipment, metalworking machinery, special industry machinery, general industrial machinery, computer and office equipment, refrigeration, heating and service industry machinery, electrical transmission and distribution equipment, electrical industrial apparatus, communication equipment, complete aircraft, missiles, and space vehicles, aircraft missiles, and space vehicles, aircraft missiles, and space vehicles, aircraft missiles, and space vehicles, aircraft, missiles, space vehicles, and parts, ships and tank components, railroad equipment, and search and navigation equipment.

Defense capital goods include: ordnance, communication equipment, aircraft, missiles, space vehicles, and parts, ships, tanks and tank components, search and navigation equipment.
